Healthy on the Inside

- According to Dr. Oz, pea protein powder can help curb cravings. It triggers a hormone that tells you you’re full and helps turn off the cravings! This saves many calories, not to mention the vitamin benefits.
- **ARBONNE’s PROTEIN POWDER** has 20 grams of VEGAN protein which consists of PEA, cranberry & brown rice.
- One study found that replacing high-calorie drinks (soda, juice, lattes) with water, tea or seltzer helped people lose weight. In fact, without making any other lifestyle changes participants lost 4-5 lbs in just 6 months.
- **ARBONNE’s ENERGY FIZZ STICKS** not only help boost energy through vitamins & minerals, but they help speed metabolism and burn STORED CALORIES! They also contain Rhodiola which is a “Good Mood Food”, so YES, you will be happier too!
- Dr. Oz says that the positive effects of getting enough fiber will happen “almost immediately”. The fiber can help move things through your system – including toxins – very quickly. Also, “Bile, when it gets absorbed through the bowel, turns into cholesterol. So when you have a lot of fiber in your diet, you suck the bile out of you and your cholesterol drops automatically. It also gets rid of sugar, which helps diabetics. And it’s a great tool if you want to lose weight because it makes you feel full”.
- **ARBONNE’S FIBER BOOST** provides ½ of the daily recommended amount in 1 serving. It’s odorless, tasteless, colorless & textureless. Arbonne’s fiber is also soluble and does not thicken when added to any food or drink.
